

"BORING"

We reviewed the 1st Grade chart from last year. Everybody knew most of what we reviewed. In fact, they knew it so well they said "Boring..Boring" every time I asked them something and they all raised their hands.

They also said that Mr. Silvers class was not boring.

"COMMERCIAL" BREAK

We took a "commercial" break and everybody stood up behind their chair. I asked them all to balance on one leg. That was pretty easy for them ("boring..."). Then I told them to make sure they knew where their chair was and then to close their eyes while still balancing on one leg.

That was not so boring!

They could practice doing this for improved balance.
